FOR IMMEDIATE RELEASE

Global Beauty Glistens with Vitamin C Day Cream (SPF 30) for a Powerful Private Label Product

IRVINE, CA (March 25, 2009) - Global Beauty, one of the only manufacturers of *clinical based* private-label skincare products, introduces a multi-purpose **Vitamin C Day Cream (SPF 30)** for all skin types - a great signature product for summer for any spa or salon.

“The Vitamin C Day Cream (SPF 30) is suited for those who want a quick skincare routine, rather than fussing with multiple products, especially important during the busy summer months,” explained Ellen Clark, president of Global Beauty. “Plus, it offers the salon a standout private label product, sure to generate summer sales.”

The high-potency Vitamin C provides a powerful antioxidant, while the clinical-based moisturizer protects the skin against free radical damage and features ingredients that help increase the skin’s blood flow and improve elasticity and texture. With an SPF 30, the cream offers powerful sun protection as well. The light formula is non-greasy, non-comedogenic and smells great.

“Sunscreen is essential year-round, but is even more important during the summer months when the sun is at its strongest. This three-in-one product gives skincare professionals the opportunity to offer their clients a quick and easy solution to rejuvenate, hydrate *and* protect their skin,” added Clark.

Global Beauty is an innovative private label skincare line that provides estheticians with advanced cosmeceutical products, low minimums and branding support. The line includes a full range of professional and retail products and sophisticated customized labeling.
